June 21, 2002

Mr. Dan Proctor, Project Manager  
Unico, Incorporated  
951 East 830 South  
Pleasant Grove, Utah 84062

Dear Mr. Proctor:

Our records show that you have an active notice on file with this office. The case file for this notice is UTU-77204. Please refer to this number in any future correspondence.

New Surface Management regulations at 43 CFR 3809 regarding notices were effective January 20, 2001. Under the final rule, existing notices expire in 2 years on January 20, 2003. In addition, on or before January 20, 2003, you must notify this office in writing, if you wish to continue operations, and you must post a financial guarantee for reclamation as required under 43 CFR 3809.503(a) and 3809.552 on or before January 20, 2003.

Since the surface disturbance at your project area has been recontoured and seeded, we will not require you to post a financial guarantee at this time, and your notice will be kept open without requiring a financial guarantee. Based on inspections of the site, favorable vegetation appears to be growing, and the soil appears to be stable. However, we plan to continue to monitor the site until we are assured that adequate vegetation is re-established. We do not anticipate a need for you to perform any additional reclamation work at this time, however, we plan to monitor the site for at least one more growing season.

If you have any questions regarding your notice, please call Michael Jackson, Geologist, at (435) 896-1522. Thank you for your efforts to date to satisfactorily reclaim the site.

**RECEIVED**

**JUN 28 2002**

**DIVISION OF  
OIL, GAS AND MINING**

Sincerely,

Lori Armstrong  
Acting Associate Field Manager
